

Incorporated

April 2008, AIM is locally owned and operated. Our company is built on the strength, dedication and experience of its employees: office and warehouse staff, tradespeople, supervisors and management. Through our years in business, AIM has built and established a work force and network of sub-contractors that enables it to tackle most any industrial project.

Statement of Safety Policy

It is the policy of AIM that every employee is entitled to work under the safest conditions. To this end, every reasonable effort shall be made to provide for, and maintain safe and healthy working conditions and eliminate hazards that can cause injury to workers or damage to property and equipment.

Safety and Accident Prevention is a team responsibility and as such, supervisory personnel and employees shall be accountable for the safe operation of their projects. The Company policy is to develop and maintain an effective program for safe jobsites.

This policy illustrates Management's acceptance and recognition of the fact that safety and production as synonymous. Therefore, planning for team safety shall be incorporated in all the operational phases of AIM.

AIM CERTIFICATIONS

Toyota Motor Manufacturing Canada

Toyota's prestigious "Supplier Award of Excellence" was awarded to AIM Industrial for Fiscal Year 2016 AND 2017 based on our overall ranking of **Number 1 Supplier to TMMC** with a report card that "meets or exceeds expectations" in every single category.

INDUSTRIES SERVED & SERVICES OFFERED

AIM is a Multi-Trade Industrial Contractor servicing Southern Ontario

INDUSTRIES SERVED

include but are not limited to:

- Food, Beverage & Packaging
- Automotive
- Consumer Products
- Chemical, Rubber
- Water/Waste Water Management
- Renewable Energy
- Steel Mill
- Cement & Aggregate
- Fabric & Textiles
- Recycling
- Plastics & Aluminum
- Stamping, Injection Molds & Extrusion Presses
- Manufacturing/Assembly plants
- Institutional/Educational/ Public Services
- Overhead crane repairs
- Solar
- Robotics
- OEM (Original Equipment Manufacturers)

SERVICES OFFERED include:

- Millwrighting
- Rigging
- Electrical
- Sheet Metal
- Automation
- Piping / Mechanical
 - a. TSSA
 - b. Gas & Refrigeration
 - c. Process Piping
- HVAC Service, Installation & Support
- Fabrication (CWB)
 - a. Custom design
 - b. Carbon, Stainless
 - c. Aluminum

ELECTRICAL SERVICES

- Process Electrical installations
- Industrial Design/Build – Industrial control systems
- Process controls – Automation Integration
- PLC Wiring and Troubleshooting
- Belden Certified for Ethernet
- Instrumentation and instrument calibration
- Electronic/Electrical troubleshooting and repairs
- Preventive Maintenance Programs
- Robotic wiring and installations
- Complete plant and equipment relocations and turnkey installations
- Solar panel installations
- Panel wiring
- Building Distribution
- Service installations
- Medium and High Voltage installation and repair
- Variable Frequency Drives (AC & DC drives)
- Building lighting and systems
- Fire alarm systems
- Heat trace
- Grounding
- Machinery and equipment wiring
- Maintenance coverage & assistance
- Hazardous location installation
- Power quality metering and power factor analysis

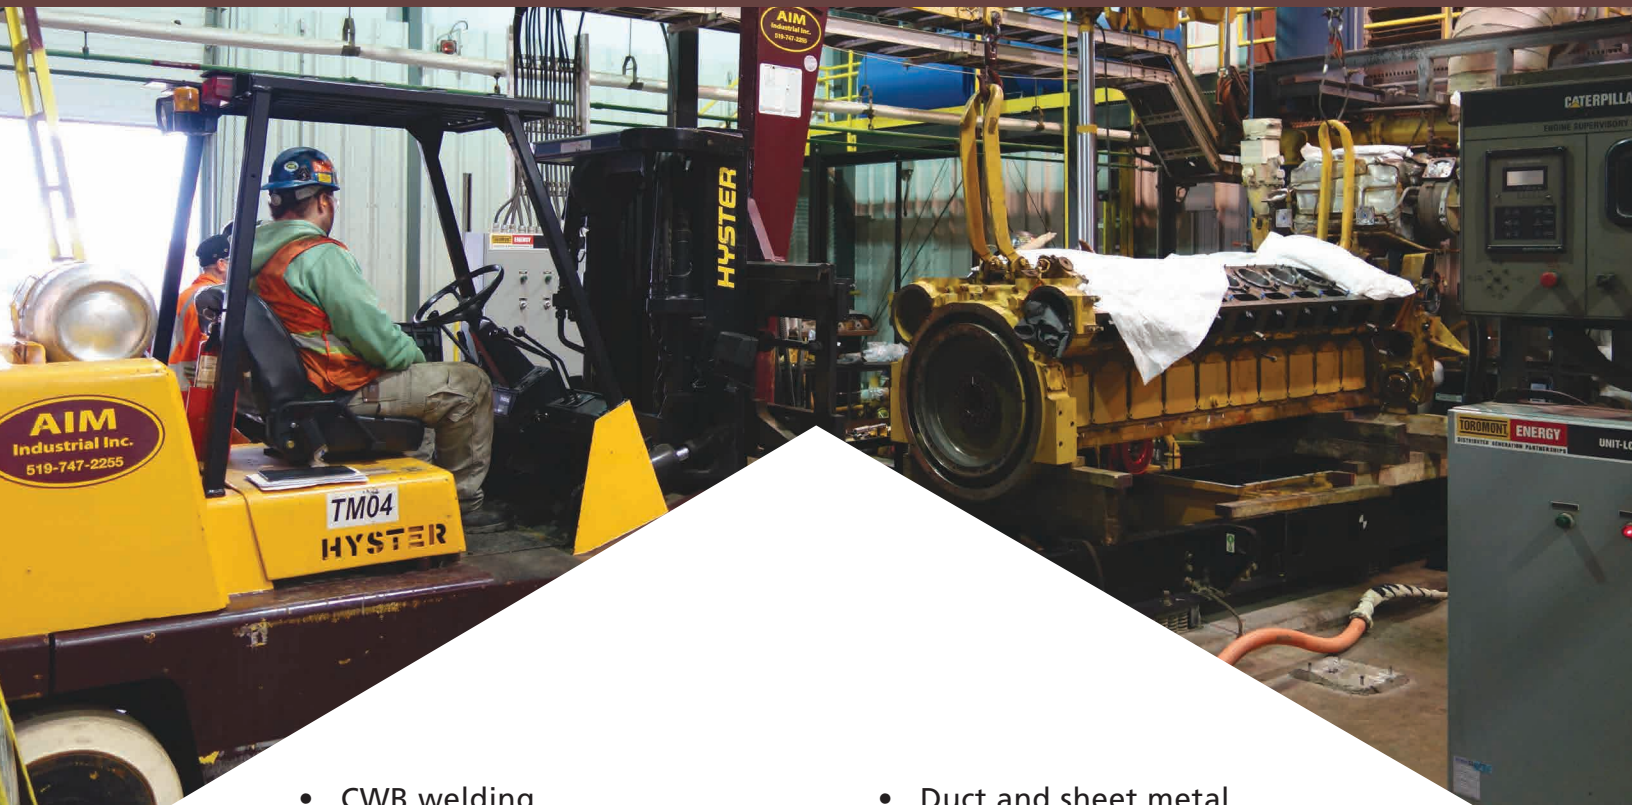

24/7 Emergency Service Response

MULTI-TRADE CONTRACTOR

MILLWRIGHT & RIGGING SERVICES

- CWB welding
- Process and equipment installations
- Complete plant relocations
- Presses: Stamping, Injection Mold, Extruder installation, maintenance, break-down service and relocation
- Maintenance and vacation support
- Conveyor installation and modifications
- Precision alignment and leveling
- Duct and sheet metal installation
- Safety guarding fabrication, installation and modification
- Plant demolition
- Robot installation and maintenance
- Machinery moving
- Specialized and heavy rigging
- Structural reinforcing
- Steel erection
- In-plant mezzanine, catwalk, stair and handrail installation
- Specialized transport
- Machinery off-loading and placement
- Crane work
- Skidding and packaging
- Oversized fork-truck supply and operation
- PSHSR

24/7 Emergency Service Response

FABRICATION SERVICES

- Custom Design and Fabrication
- Carbon steel, Stainless steel, Aluminum
- Miscellaneous Metals
- Safety Guarding
- Catwalks, Mezzanines, Stairs
- Custom Electrical and Light Curtains, stands, brackets & supports
- Food Industry equipment and machinery
- Conveyors, Custom machinery
- Ducting and Sheet Metal
- Custom chutes and transitions
- Structural
- Pipe skids

PIPING/MECHANICAL SERVICES

- TSSA registered
- Process piping
- Industrial Furnace installation, rebuilds and maintenance
- Commercial and Institutional complete Mechanical installations
- Piping fabrication including Modular Skid units
- Large and small bore pipe prefabrications and installations
- Steam and Thermal Fluid piping and Boiler installations
- Stainless steel piping and tubing and food-grade sanitary piping
- Natural Gas and Propane Piping and installations
- Medical Gas Piping and Process Gas installations
- Hydraulic & Pneumatic Piping and controls
- Machinery rebuilds, including presses, injection molding and extruder machines
- Industrial Maintenance
- Refrigeration
- Pipe insulation
- Design build installations
- Plant Maintenance, Labour supplement and Shutdown assistance
- HVAC service, installations and support

24/7 Emergency Service Response

HVAC & R

Heating, Ventilation, Air Conditioning and Refrigeration

BUILDING PLUMBING AND ELECTRICAL SERVICES

**The AIM HVAC
& Refrigeration Service
Group has some of the most
experienced technicians in the industry
on call and focused on the installation and
maintenance of your HVAC&R systems – 24 hours a
day, 7 days a week!**

- HVAC service, installations and support
- HVAC Service Contracts
- Building preventative maintenance
- Plumbing, installations and repairs
- Combustion analysis and support
- Electrical service and installations
- Refrigeration installations and repairs
- Chiller maintenance, repairs and support
- Boiler service and repairs
- Backflow services
- Cooling Towers
- Heating units
- Compressors
- Condensers

24/7 Emergency Service Response

STAMPING PRESS SERVICES

**AIM
Industrial's
skilled tradespeople
have been actively involved
in Press installations, and 24-hour
breakdown service for over 30 years. The
following, lists services provided and some specifics:**

- Rebuild Clutches and Brakes.
- Gib and liner repairs or replacements.
- Cushion repairs and replacements.
- Pitman arm, Plunger repair or replacement.
- Main bearing and crank shaft repairs.
- Overload protection.
- Main gear replacement and press retiming under OEM direction.
- Main motor rebuild.
- Stress fractures and cracks on crown body, slide bed and bolsters requiring arc air gouging, welding, stress relieving & machining.
- Electrical rewiring, Control and Safety upgrades. PSHSR
- Lubrication system repairs or replacement.
- Tie rod replacement.
- Hydraulic nut or SuperNut supply and install.
- Rolling Bolster rail repairs or supply and install of new.
- Press pit flooring pre-cast concrete or steel panel complete with girder supply and install.
- Installation of press pits and steel.
- Robotics and Automated Die change system installations.
- Stacker, destacker, feeder repairs and installations.
- Installation of transfer rail systems for multi press stamping operations.
- Scrap chute supply, repairs and installations.
- Scrap conveyor installation and repair.

Emergency Service
Response**

PLASTICS & ALUMINUM SERVICES

**AIM
Industrial's skilled
tradespeople have been
actively involved in the Plastics and
Aluminum industry, including 24-hour break-
down service for over 30 years.**

Having serviced and installed numerous Turnkey Installations and Relocations of most and all types of machinery related to these industries including:

- Small to very large (4500 ton) Injection Mold Machines
- Various types and sizes of Extrusion Machines
- Thermoforming, Blow Molding, Rotomolding, Compounding, and Recycling
- Having worked directly for Customers such as, Toyota Boshoku, Vuteq, Denso, Listowel Tech, TS Tech, Mitchell Plastics, INOAC Intertec and Guelph Products
- AIM is a service provider for UBE/Mitsubishi, and has performed work or installed at/for several other IMM manufacturers such as Krauss Maffei, JSW, Husky, Van Dorn Demag, Granco Clark and Milacron

Numerous Turnkey press installations and relocations

- Replacement of IMM tips
- Remove/Machine/Re-installation of barrel
- Replacement of linear rails
- Rebuild/Replace IMM screw assembly
 - Remove/replace broken tie-rods
 - Rebuild/unplug injector ends
 - Ongoing maintenance and levelling on 2500T & 2800T IMM

Re-organization of Guelph plant

- Relocated 6 IMM's in-house (turnkey) during production and within tight schedule
- Install 4 new IMM's including piping and electrical services

New Aluminum Extrusion System

- Complete turnkey installation of 2500 ton Aluminum Extruder System including working directly with the OEM on the installation of the conveyors, saws, furnace, cooling system along with chip conveyor

24/7 Emergency Service Response

FOOD, PACKAGING & CHEMICAL SERVICES

AIM
Industrial's skilled
tradespeople encompass
some of the most experienced
workers in the contracting industry – and
continue to excel in the Food, Packaging and
Chemical sectors.

Fabrication

- Custom fabrication
- Machine & conveyor guarding

Automation Services

- Line synchronization and integration
- Installation & integration of Robotic systems
- Re-tool lines for consolidation of SKU's

Installation includes, **but is not limited to:**

- Smokehouses, Cookers, Pasteurizers, Ovens

- Stuffers, Extruders, Coextruders, Injectors
- Conveying systems
- Packaging equipment
- Palletizers / Depalletizers
- Stainless steel Process & Sanitary Piping
- Water, Pneumatic, CIP, Vacuum Line installs
- Complete plant relocations
- Assembly / Rebuilds / Enhancements of entire lines
- On-Site Repairs & Emergency Service
- Maintenance Coverage

AIM provides ongoing millwright, electrical, piping support AND expansion services at various Food and Packaging Plants in south-central Ontario.

AIM supports the following standards, guidance and associations: HACCP, AIB, GFTC, OABA and CFIA.

CEMENT/AGGREGATE/CONSTRUCTION MATERIAL SERVICES

AIM
Industrial's skilled
tradespeople have been
actively involved in the cement,
aggregate and construction materials
industries for over 30 years.

Brick & Construction Material

- Fume extraction hoods and ducting Project for MOE initiative
- Custom catwalk on top of kilns for maintenance access
- Kiln rail replacements, Mississauga, Burlington, Woodstock
- Press Rebuild/Maintenance, brick skid handling system, fabricated/install new structure
- Brick kiln cooling system, (kiln outlet)
- General Maintenance in brick plants
- Structural repairs and Safety upgrades (guarding)
- Rod mill rebuild, bearings, gears and wear plates
- Conveyor and scraper maintenance, replacement

- Finished material, skid handling equipment maintenance

Cement & Aggregate

- Chute and hopper rebuilds/replacements
- Conveyor installation, rebuilds and maintenance, slat and troughing
- Structural steel and Safety guarding
- General maintenance, mill maintenance, fan and blower repairs, maintenance
- Cooler, maintenance, rebuild, replacements
- Bucket elevator rebuild, coal separator and conveyor systems, grizzly replacement and repairs
- Baghouse, heat exchanger, stack installation and levelling
- Kiln lance replacement, inlet rebuild, shell demolition and inching gear maintenance
- Above ground-underground-stainless steel and black piping projects
- Primary and Secondary crusher – miscellaneous piping, electrical & mechanical rebuilds and maintenance

24/7 Emergency Service Response

PLANT EXPANSION & RELOCATION SERVICES

**AIM
Industrial's skilled
tradespeople encompass
some of the most experienced work-
ers in the contracting industry – and continue
to work in a diverse array of sectors –
including small to large scale plant expansions and relocations**

The following are some of the customers where this work has been performed:

- Toronto, Ontario
 - Many of our tradespeople and management have experience as the General Contractor of the last major expansion at a major international food producer in Toronto, Ontario. The Bulk-Loadout expansion entailed 250T of steel fabrication and installation; including the installation of the distribution equipment (conveyors, distributors, shakers, etc...)
- Kitchener, Ontario
 - 2014: AIM rebuilt part of a Packaging plant while adhering to food standards. All trades.
- Toronto, Ontario
 - 2013: This major paper manufacturer replaced their existing mill with a new mill and 100,000 square foot addition with a new packaging line. AIM Industrial was heavily involved in this project and employed 30-40 tradesmen on 10 hour shifts during this shutdown installation for a period of five months.
 - Key tasks included truss reinforcement, structural supports, miscellaneous metals installations, and equipment installations. Timeline management, restricted laydowns and work space, and project organization.
- Woodstock, Ontario
 - 2014 - Complete plant equipment installation in Woodstock On. All process equipment for slitter and packaging lines for heavy steel application. All trades.
 - Tranco and Colt installation with Safety Upgrades
 - Core forming machine installation
- Stratford, Ontario
 - Complete, all trade automotive parts plant relocation: Woodstock to Stratford

24/7 Emergency Service Response

AUTOMOTIVE SERVICES

**AIM
Industrial's trades-
people, over the past 30
years, have helped define, not only
what a skilled worker is, but also what 24-
hour breakdown service means, with an ongoing
and growing presence in the Automotive industry.**

We have serviced and installed numerous Multi-Trade Turnkey Installations and Relocations related to the industry at facilities such as:

- Tier 1, 2, 3 and right through Tier 4 manufacturers
- Major OEM (Original Equipment Manufacturers)
- Complete with on-site satellite office presence

Our skilled team has experience servicing and installing most all types of machinery such as:

- All sizes and styles of Steel Forming and Stamping Presses
- All sizes of Plastic, Polymer, Aluminum: Injection Mold, Blow and Thermoforming, Extrusion, and other styles of Presses
- Robotics, Conveyors, Carriage systems, Assembly Lines, Tooling, Weld Shop, Paint Shop, Team Rooms, Superfinishers, Welding Machines, Structural Upgrades, Miscellaneous Metals/Mezzanines, and more...
- Prototype design assistance and manufacturing/fabrication

Continuously rated among the top contractors at Toyota, Cambridge, Ontario

- Rated #1 at Toyota for fiscal 2016 and 2017

ROBOTIC SERVICES

**Whether it
be in Automotive, Food,
Packaging, Consumer Products, Plastics,
Renewable Energy, the list is endless;**

**Robots are a part of the future.
The Tradespeople at AIM Industrial Inc. have decades of
combined experience in the Installation, Maintenance and Repair
of Robotic machinery and systems.**

- Palletizing / De-palletizing
- Machine loading / unloading
- Packaging
- Distribution
- In Process
- End of Line
- Material handling
- Machine tending
- Print and converting
- Roll handling
- Sheet, Pipe and Tube
- Gantry Robots
- Articulating Arms
- Upgrades to Equipment and System Controls
- Multi Axis, Movement and Application Systems

AIM works in partnership with a number of Design, Automation and Programming companies to ensure your Robotic process and systems are at peak performance

24/7 Emergency Service Response
